

raiSE
SINGAPORE
Centre for Social Enterprise

SO, YOU'RE A *Social*
Enterprise?

Who is raiSE?

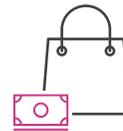

raiSE is the Singapore Centre for Social Enterprise.

The Singapore Centre for Social Enterprise (raiSE) was set up in 2015 to develop the social enterprise sector in Singapore.

raiSE brings together the larger community of social enterprises, aspiring social entrepreneurs, supportive organisations and individuals through our various programmes, initiatives and events to help build a vibrant social enterprise ecosystem. Through our work within our social enterprise family and our growing networks, our goal is for the local social enterprise sector to be an active part of a more caring and inclusive society in Singapore.

As a membership body, raiSE supports our social enterprise members on their journeys from set-up to growth and expansion.

What are Social Enterprises?

Business Entity

**Set Up With
Clear Social Goals**

**Resources Allocated
To Fulfil Objectives**

Social enterprises are businesses that work to drive profit and intentionally address social issues, improve communities, provide employment opportunities.

They use the power of the marketplace to solve the most pressing societal problems, allowing you to make every purchase count and contribute in a positive way to the community.
